Outcome of MOEJ's Task Forces on Co-benefits Approach -An Essential Background of CDM for Local Governments-

Now English Brochure is available!

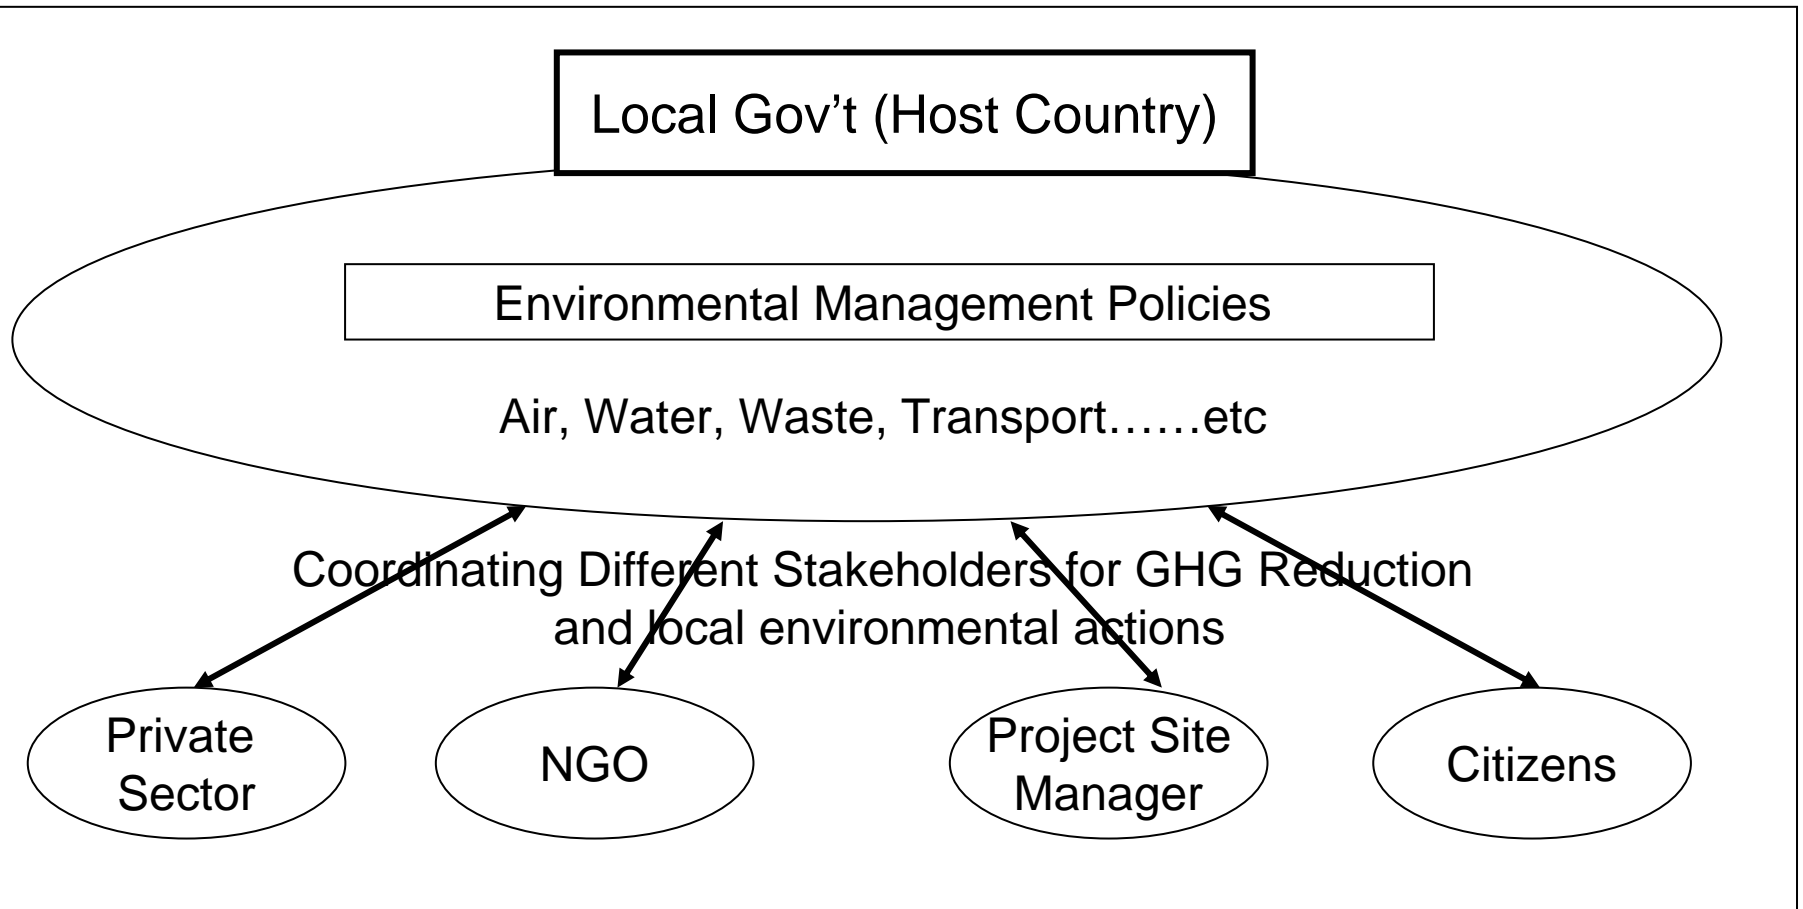

Recommendations to MOEJ & Call for Partners upon Collaboration

- Integrating Co-benefits Approach into CDM Capacity-building, and Feasibility Studies
- Collecting Good Practice Cases
- Development of Evaluation Methods on Different Co-benefits Sectors (Energy, Transport, Waste etc.)
- Development of Standard for Practitionersetc

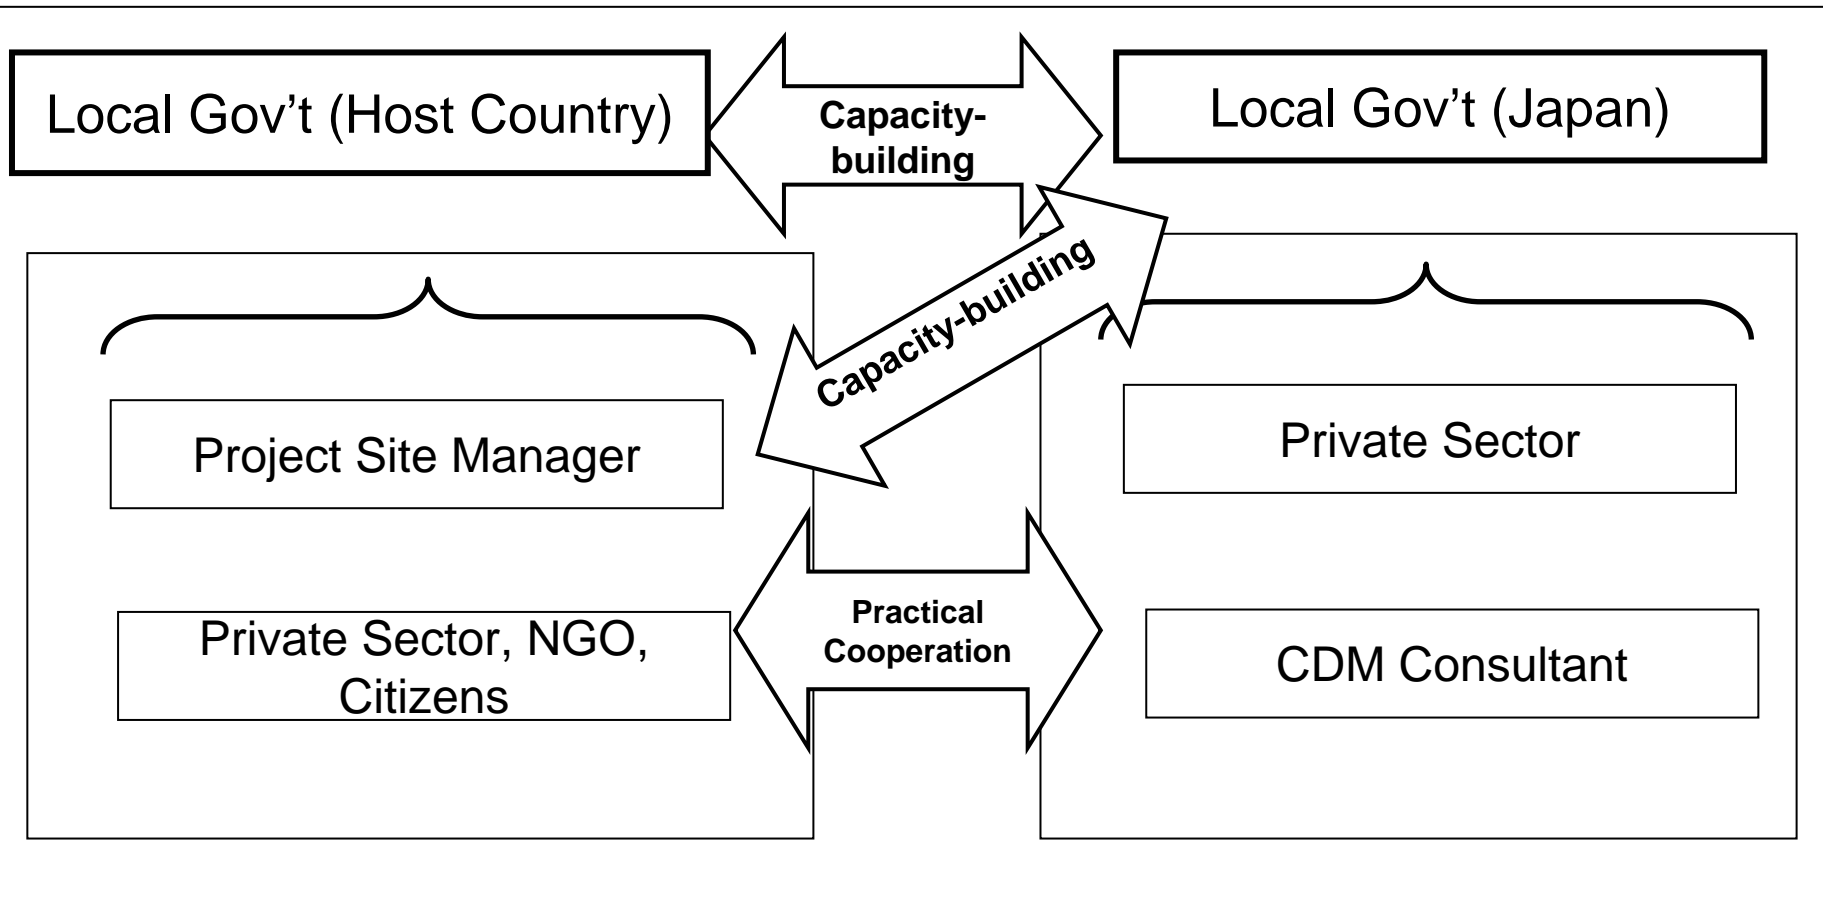

Roles to be played by Local Governments in CDM Projects

Coordination Role is a Key to Local Governments CDM

Roles to be played by Local Governments in CDM Projects

Roles to provide Capacity-building and Technology Transfer Opportunities

Further Efforts by MOEJ

Expected Projects for Implementation?

- Projects that really bring about GHG reduction through CDM Methodologies.
- Projects that really realize co-benefits globally and locally.
- Projects are conducted under a strong leadership/ownership of local governments.

Thank you very much!
